1. What is your connection or interest in this case? * For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)
---

I am a current residential customer of Dominion Energy with a solar installation on my house.

2. Please give a concise statement of your protest. * (This section must be completed. Attach additional information if necessary.)
---

I am extremely concerned about the proposed DE solar tariffs and rates. Not only will it kill the future of individual customer solar power in SC, but it also unfairly charges those who have already invested in residential solar production in good faith and who assumed that they would receive the same or similar treatment from SCEG in the future as they had in the past. Allowing Dominion to make such a drastic changes in charges will mostly eliminate any financial benefit those with existing solar installations would have seen in the future and upon which the decision to install solar in the first place was predicated. Furthermore, it must be recognized that individual solar customers do not just "free-ride" on the grid infrastructure, but by producing energy that is shared on the grid, they actually reduce the investment Dominion has to make into new energy-producing infrastructure, and this investment should be reflected in reasonable residential solar rates/tariffs.

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? *
--

No, I do not need to make an appearance or speak.
